

WAHAJ SAJID

Founder & Data Science Student | Backend AI Engineer | Award-Winning Filmmaker
Islamabad, Pakistan | Cell: (+92) 321-5327072 | Email: wahajsajid.1.2@gmail.com | [LinkedIn](#)

PROFILE

Data Science undergraduate at GIKI with a strong record of building technology solutions across AI, full-stack development, quantitative finance, and probabilistic modeling. Founder of Bits N Bytes, a campus food-tech startup. Award-winning documentary filmmaker with films screened at AMC Theatres, New York. Currently interning in Backend AI Engineering and Financial Data Analysis. Enthusiastic about applying computation to real-world problems.

EDUCATION

Ghulam Ishaq Khan Institute (GIKI) <i>B.S. Data Science</i> Topi, Swabi, KP	Sep 2024 – Jun 2028
- Relevant courses: Machine Learning, Statistical Inference, Database Systems, Data Structures & Algorithms, Artificial Intelligence, Deep Learning, NLP, Development Operations. - Projects: CrimeWatch FIR System, Heart Failure Readmission Predictor, Student CGPA Analytics, Social Network DSA.	
Lahore Grammar School (LGS) <i>A-Levels (Engineering Sciences)</i> Lahore, Punjab	Aug 2022 – Aug 2024
Grade: A-Level	
Beaconhouse School System <i>O-Levels</i> Pakistan	Sep 2021 – Aug 2022
Grade: A	
Fazaia Inter College (FIC) <i>Pre-Engineering</i> Pakistan	Sep 2018 – Sep 2021
Grade: A Activities: Filmmaking & Media	

PROFESSIONAL EXPERIENCE

FlyRank AI <i>Backend AI Engineer – Intern</i> Chicago, IL (Remote)	Jun 2026 – Present
- Working on the Backend AI Engineering track, building agent integrations and APIs for an organic growth automation platform. - Focusing on LLM orchestration, scalable backend services, and AI-powered search infrastructure.	
Decodelabs <i>Financial Data & Trading Analyst – Intern</i> New Delhi, India (Remote)	Jun 2026 – Present
- Built a Python-based Algorithmic Trading Dashboard with yfinance data pipeline, custom candlestick analysis, and automated S/R detection. - Engineered an IPO Decision Engine combining Golden Cross (EMA 50/200), RSI momentum gates, and S/R zone signals. - Implemented full risk management: Entry, Take-Profit, Stop-Loss calculation with simulated circuit breakers and Risk:Reward enforcement. - Rendered interactive dark-mode dashboards using Plotly; open-sourced on GitHub.	
Bits N Bytes <i>Founder & Lead Developer</i> GIKI / Islamabad (Hybrid)	Oct 2025 – Present
- Founded a campus logistics startup solving the 'hometown food' gap for GIKI students, delivering from Islamabad/Rawalpindi to Topi. - Built and shipped the full-stack platform (React, Supabase, Vercel) including live order tracking, restaurant management, and mobile-first PWA.	

- Developed Bytes AI, a custom Gemini-powered AI assistant with dual customer/admin personas, natural-language menu ordering, and live order management.
- Managed remote digital marketing teams and on-site delivery logistics; scaled to serve the full GIKI student body.

IEEE GIKI Student Branch

Feb 2026 – Present

Student Member & Event Host | GIKI, Topi

- Hosted the International IEEE HONET 2025 Conference (Smart Cities & ICT), managing international delegates and on-site logistics.
- Co-hosted the IEEE R10 (Asia-Pacific) Summit, coordinating student branches from across the region.
- Organized the National Electronics Olympiad (NEO), one of the largest technical competitions at GIKI.

Pakistan Aeronautical Complex (PAC)

Jul 2023 – Aug 2023

Student Intern – CAD / 3D Modeling | Kamra, Pakistan

- Modeled aviation hardware components in CATIA as part of a 30-person engineering team.
- Gained firsthand exposure to aerospace design workflows and component precision tolerances.

PROJECTS

CrimeWatch Pakistan – FIR Management System

Apr – May 2026

Stack: PostgreSQL · Django · PL/pgSQL · Chart.js · HTML/CSS

- Designed a 9-table fully normalized PostgreSQL schema with strict referential integrity for a crime reporting web application.
- Implemented PL/pgSQL stored procedures, automated status-change triggers, and Django views using secure parameterized raw SQL queries.
- Integrated Chart.js front-end for real-time crime analytics visualization across case statuses, districts, and crime types.

Heart Failure Readmission Predictor

May 2026

Stack: Python · Naive Bayes · Bayesian Networks · pandas

- Predicted 30-day hospital readmissions using 15 clinical, behavioral, and socioeconomic features; built Naive Bayes from scratch.
- Designed a Bayesian Network DAG mapping causal dependencies, enabling evidential diagnosis and inter-causal reasoning.
- Benchmarked against industry Naive Bayes baselines; documented in a probabilistic ML report with viva presentation.

Student CGPA Analytics – Predictive Modeling

May 2026

Stack: Python · XGBoost · Ridge/Lasso · SHAP · scikit-learn · PCA

- Built an end-to-end ML pipeline on a 100-record GIKI survey dataset; XGBoost achieved ~90% accuracy.
- Engineered custom features (mental index, efficiency ratio); applied SHAP values for interpretability.
- Evaluated the impact of PCA dimensionality reduction on model performance across five regression algorithms.

Algorithmic Stock Market Dashboard

Jun 2026

Stack: Python · pandas · NumPy · yfinance · Plotly

- Designed an IPO Decision Engine scanning for simultaneous price-at-boundary, Golden Cross, and RSI > 50 conditions.
- Automated S/R zone detection from local min/max clustering and ascending/descending trendline mapping.
- Full risk management: per-trade Entry/TP/SL with adaptive position sizing and consecutive-loss circuit breakers.

Social Network System

Dec 2025

Stack: C++ · Graph Theory (Adjacency List) · BST · BFS/DFS · Stack

- Led a 4-person team to build a console social network from first principles without STL shortcuts.
- Mapped BST for user search, Graphs for connections, BFS for friend recommendations, and Stack for undo operations.

Text-Based RPG (D&D Inspired)

May 2025

Stack: C++ · OOP

- Implemented complete D&D mechanics (combat, skill checks, character creation) as a text-based interactive engine.
- Led agile team collaboration for a stable, bug-free release under strict deadlines.

Forgotten by Law – Documentary

Jul 2024 – Jan 2025

Stack: Adobe Premiere Pro · Photoshop · Field Production

- Directed a social-impact documentary on rural land pollution in Pakistan; selected for AAHSFF 2025.
- Screened at AMC Theatres, Times Square, New York City (October 2025).

Story of How I Saved a Village – Documentary

Dec 2021 – Feb 2022

Stack: Video Production · Field Interviews

- Produced and directed a documentary on Kamra Village's waste management initiative; developed a community action plan.

- Awarded Best Critic Short Film at IFEFA (International Film and Entertainment Festival Australia).

TECHNICAL SKILLS

Languages: Python, C++, SQL, JavaScript (React), HTML, CSS

Data & ML: pandas, NumPy, scikit-learn, XGBoost, Bayesian Networks, SHAP, Matplotlib, Plotly, yfinance.

Databases: PostgreSQL, Supabase, PL/pgSQL, SQL (Advanced – HackerRank certified)

Web & DevOps: React, Django, Vercel, Git/GitHub, Linux, Docker (basics), REST APIs

AI & LLMs: Gemini AI, Claude API, LLM agent integration, prompt engineering

Design & Media: Adobe Premiere Pro, Adobe Photoshop, Filmora, DaVinci Resolve, Canva, CATIA

Productivity: MS Office (Excel, Word, PowerPoint), Google Workspace

CERTIFICATIONS

- **SQL (Advanced)** HackerRank (Aug 2025)
- **National Electronics Olympiad (NEO)** IEEE (Nov 2025)
- **English for Career Excellence** — U.S. Department of State (Dec 2024)
- **Data Science & Analytics** — HP LIFE (Aug 2025)
- **Design Thinking** — HP LIFE (Aug 2025)
- **Introduction to Cybersecurity Awareness** — HP LIFE (Aug 2025)
- **Cash Flow** — HP LIFE (Aug 2025)
- **AI for Beginners** — HP LIFE (Aug 2025)

HONORS & AWARDS

- **Official Selection – AAHSFF 2025** — All American High School Film Festival (Jul 2025) / *Film screened at AMC Theatres, Times Square, NYC*
- **Best Short Film** — Student World Impact Film Festival (SWIFF) (Jul 2023)
- **Official Selection – AAHSFF 2022** — All American High School Film Festival (Jul 2022) / *Film screened at AMC Theatres, NYC*
- **Honorable Mention** — Robert F. Kennedy Human Rights Film Festival (May 2022)
- **Best Critic Short Film** — International Film and Entertainment Festival Australia (IFEFA) (Feb 2022) / *Awarded by the Australian Parliament*
- **Laser Sailing Certification** — PAF Yacht Club

LANGUAGES

English: Full professional proficiency

Urdu: Native / bilingual proficiency

German: Elementary proficiency (Duolingo Score 16, Mar 2026)

INTERESTS

Artificial Intelligence & LLMs | Algorithmic Trading & Quantitative Finance | Documentary Filmmaking | Sailing | Entrepreneurship
